

```
import React from "react";

function App() {
  const isLoggedIn = true;

  let message;
  if (isLoggedIn) {
    message = "Welcome back Sreeja!";
  } else {
    message = "Please log in Sreeja.";
  }

  return (
    <div>
      <h1>Reactjs Program demonstrating usage of IF Loop - both inside and
outside JSX</h1>
      <h2>{message}</h2>
    </div>
  );
}

export default App;
```
